EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please replace the abstract with the following abstract:

A vehicle jack for a vehicle includes (a) a load rest for engagement with an underside of the vehicle, (b) a base having a ground engaging surface, and (c) a raising and lowering mechanism. The jack is stored in a jack retaining space which is formed at least in part by a jack engaging surface of a post member of a mounting element extending from a structural member of the vehicle and the post member.

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of the claims in this application is that the prior art does not disclose or suggest a motor vehicle with a structural member having a post member extending directly from the structural member, wherein the structural member and the post member at least in part define a jack retaining space and a jack having a recess formed on an edge portion of one of the assembled structures which receives the post member and a releasable jack retainer, in combination with the other elements recited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
